THE ITALIAN MANIFESTO

“The Italian Jewelry Sector’s Beacon Strategy”

At the beginning of the last century, the world experienced similar events to those we are facing now; such as digital disruption, the pandemic, new civil rights, conflicts.

These dramatic events have shifted the global scenario on all levels. In a similar way as at beginning of the twentieth century, geo-political events and industrial disruption,

brought great changes and a new set of values into society forever transforming the global scenario, markets and economies. In the era of the Metaverse, Italy takes inspiration from history for elaborating a beacon strategy that embraces society’s new values and aspirations for the future of the Luxury and the Jewelry sectors. The new values include the United Nations 2030 Agenda, which addresses the environmental crisis and social challenges by mapping the 17 SDG’s, summarized in the 5 pillars:

People, Planet, Prosperity, Peace, Partnerships.

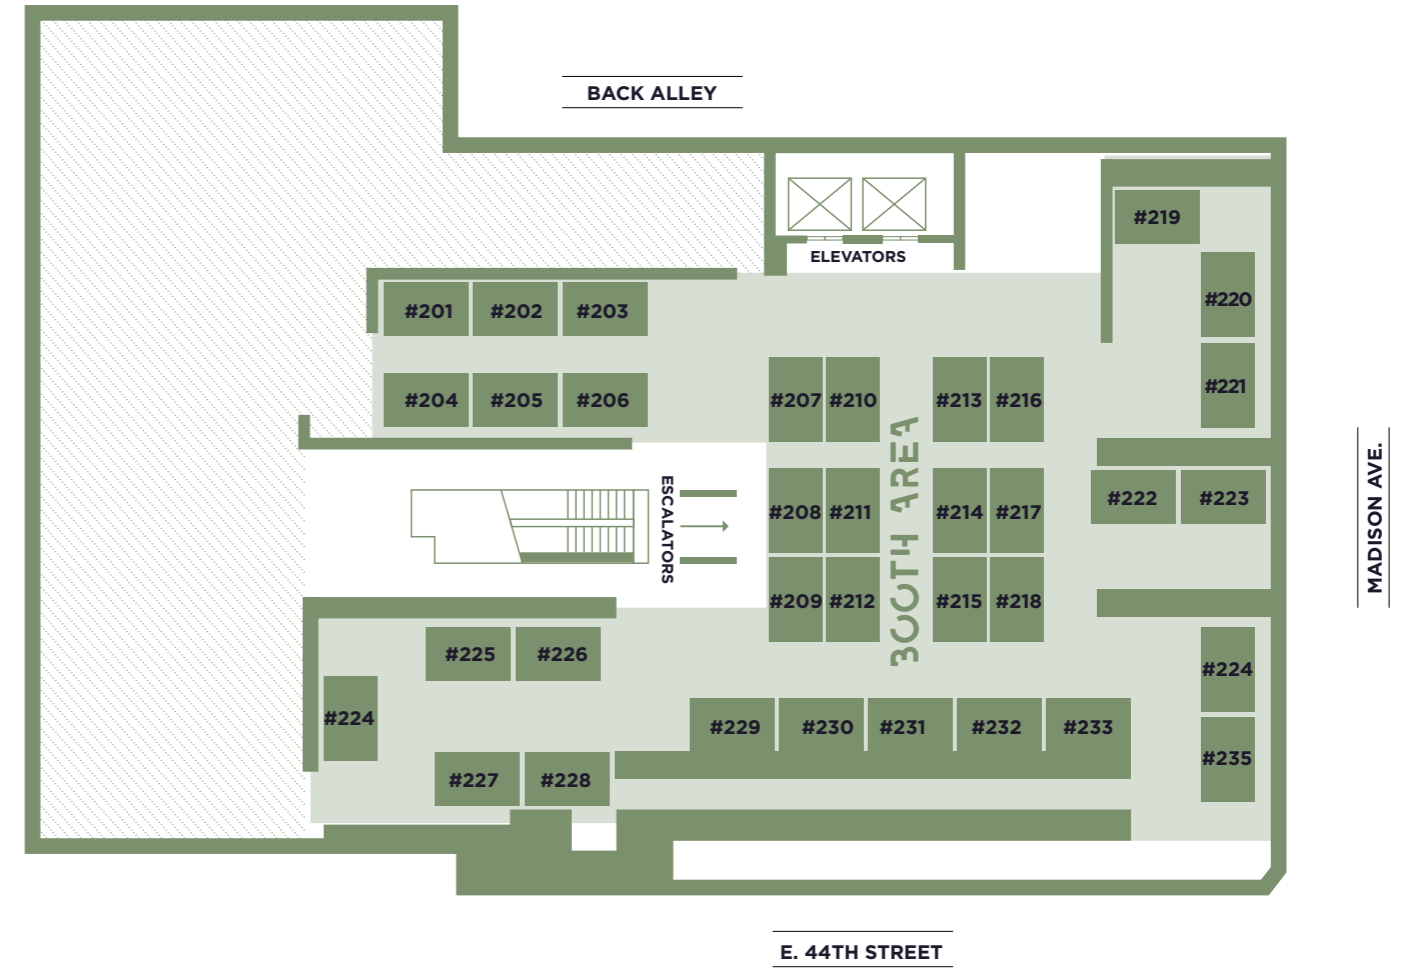

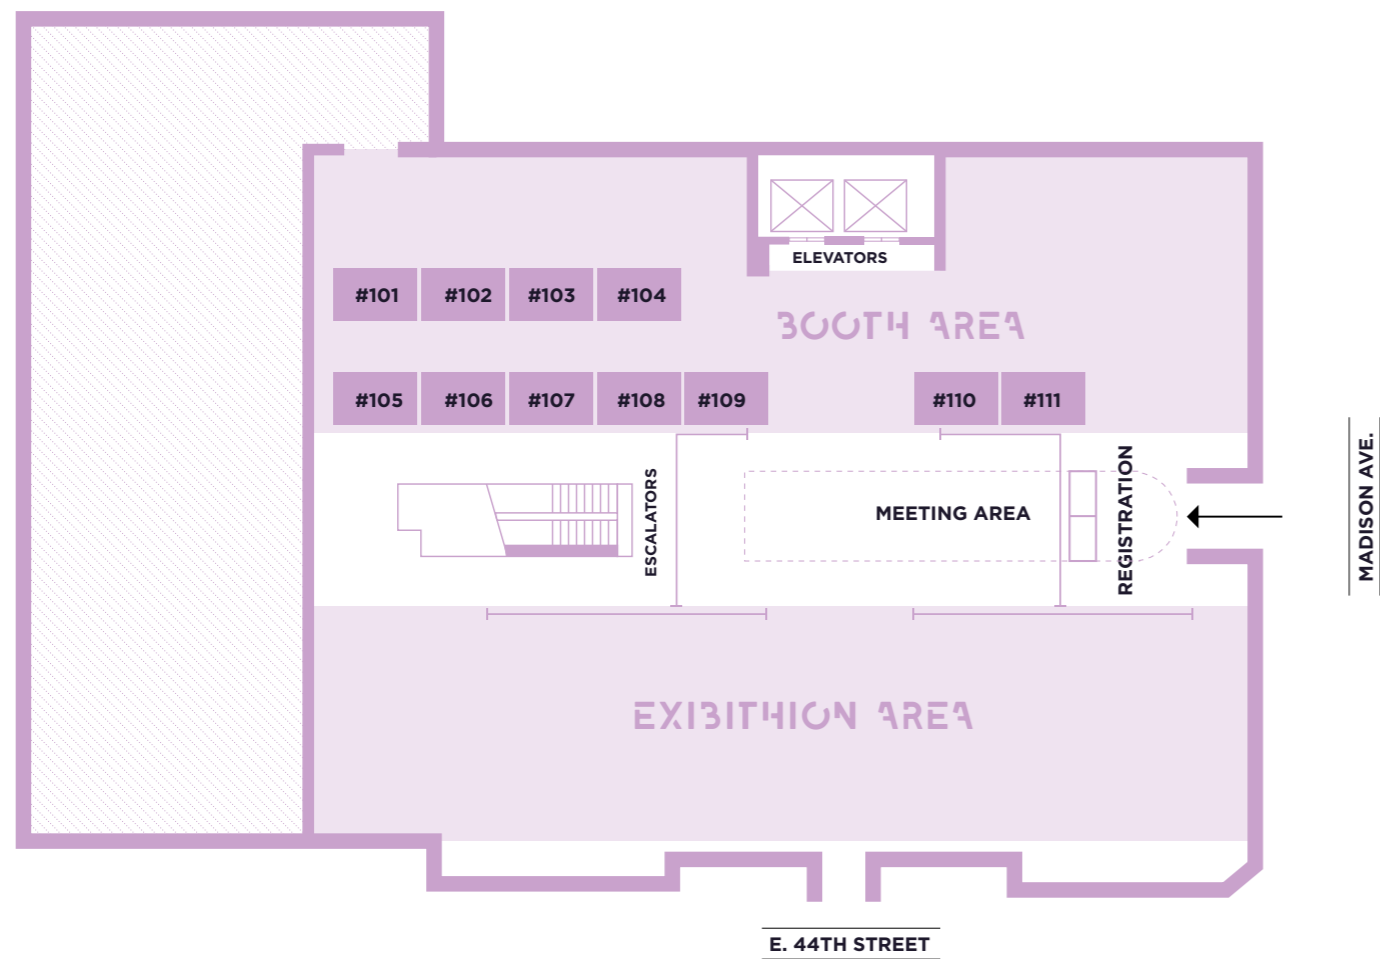

The Italian jewelry sector picks up on these values embarking on a journey of deep transformations and actions for the present and future of our planet.

Italian jewelry artist Anna Porcu grew up among the suggestive Tuscan hills, surrounded by the region's historic and cultural legacy, all well as art and antiques which her antiquarian parents collected. Her expertise in history and her passion for ancient traditions, align with a visionary concept of beauty, an eclectic personality, and a wanderer's heart. She travels the world in search of marvelous antique cameos. A real journey through time and space, with Italy as its destination. Anna works at cameo reinterpretation, handsetting their enchanting timelessness and leather strength side by side, following a creative flow that blends together new visions and the aeternal values of Italian handicraft. Each phase of the process, done with tuscan masters, requires more than technical skill: it's all about finding an ethereal balance between passion and expertise, devotion to traditions and the courage to reinvent them.

suelen@nanis.it

CONTACT: Suelen Alban

Nanis was born in 1990 from the desire of creative designer Laura and her husband Piero to create high quality jewels capable to rewrite the concept of luxury and to fully express the sophisticated contemporary woman with the precious language of gold. Nanis is contamination, fusion between the inheritance and the artisan savoir faire with the contemporary taste. Jewels in 18kt gold, diamonds and natural stones, that with the elegance of tradition rewrite the present, infusing modernity to the ancient art of Italian jewelry. Each jewel is designed to be interpreted and personalized, this is what makes it so special. Versatility is in fact in the DNA of Nanis, and can be recognized in every collection signed by Laura, the creative soul of the company. Starting from the iconic TRASFORMISTA collection: "statement pieces" par excellence, extraordinary elegant, capable, with just one movement, of transforming and completely changing appearance, becoming exquisitely casual.

Orogami is an Italian producer of exceptionally crafted fine jewellery based in Orvieto, Italy. Massimo and Tiziana Aloisio, both born and raised in Rome share their personal and professional life together. After a decade of design experience working with well-known brands, the couple established Orogami in 1990. The creative journey begins with an idea that transform and materialize itself through forms that could express it at its best. This distinctive approach to contemporary design allows OROGAMI to merge aesthetics and high-quality craftsmanship with primordial symbolic value, into its collections. The Circle, as the most important symbol of life and vitality of things, is one of the most recurrent forms into OROGAMI artwork. It is a continuous building research led to empathize the beauty of the material. Through play with light and shadows, full and empty spaces and the chromatic use of gems the desired effect is enhanced.
